Online Learning Agreement

Prepare your Learning Agreement online within a few steps and share it with both home and host universities.

This platform has been developed by the Aristotle University of Thessaloniki, the European University Foundation and the Erasmus Student Network for the 21st century mobile student.
A bit of history

- Online Learning Agreement projects I – II - III (2015-2022)
The Enamatt Without Paper project plays a central role in the European Commission’s European Student Card Initiative, a key initiative of the European Education Area. As part of this initiative, the Commission has announced that all higher education institutions participating in the Erasmus+ programme will gradually have to start using the Erasmus Without Paper network/standard to exchange student mobility data with other higher education institutions participating in the programme.

For more information on how your Institution can connect to and use Erasmus Without Paper to manage student mobility, please visit the Erasmus Without Paper Competence Centre. Note that the competence centre has practical and technical information, guidelines and video tutorials to support your institution, whether you are just getting started or are already using Erasmus Without Paper to manage your student mobility.

eduGAIN – Supporting access

eduGAIN enables simple, secure single-sign-on access to thousands of educational services worldwide

Find out More

The eduGAIN inter-federation service connects identity federations around the world, simplifying access to content, services and resources for the global research and education community. eduGAIN comprises over 60 participant federations connecting more than 5,000 identity and Service Providers.

Students, Researchers and Staff
eduGAIN helps nearly 27,000,000 students, researchers and educators access online services while minimising the number of accounts users have to manage – reducing costs, complexity and security risks.

Service Providers
With eduGAIN participants from over 2,800 identity providers, service managers can simplify their account management and control processes – allowing greater access at reduced cost.

Institutions
eduGAIN enables institutions to easily and scalably support access to services globally – allowing control over user management.

As part of the GÉANT 2020 Framework Partnership Agreement (FP4), the project receives funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No. 850720 (G4A-3).

- European Student Card initiative (since 2017)
Trust Services and Electronic Identification (eID)

Electronic identification (eID) and Trust Services are key enablers for secure cross-border electronic transactions and central building blocks of the Digital Single Market.

The Regulation (EU) 910/2014 on electronic identification and trust services for electronic transactions in the internal market (eIDAS Regulation) was adopted by the co-legislators on 22 July 2014 and it is a milestone to provide a predictable regulatory environment to enable secure and seamless electronic interactions between businesses, citizens and public authorities.

The eIDAS Regulation:
- ensures that people and businesses can use their own trusted electronic identification schemes (eID) to access public services available online in other EU countries;
- creates an European internal market for Trust Services - namely electronic signatures, electronic seals, time stamp, electronic delivery services and website authentication - by ensuring that they will work across borders and have the same legal status as their traditional paper-based equivalents. Only by providing certainty on the legal validity of all these services, businesses and citizens will use the digital interactions as their natural way of interaction.

Review of the eIDAS regulatory framework

The European Commission is currently evaluating this regulatory framework and has an open consultation from 31 July to 3 October 2020. The aim of the consultation was to collect feedback on drivers and barriers to the development and uptake of eID and trust services in Europe and on the impacts of the options for delivering an EU digital identity.

The Commission will assess by what extent the eIDAS framework remains fit for purpose, i.e., to deliver the intended outcomes, results and impacts and whether it is appropriate to modify the scope of the Regulation or its specific provisions, taking into account the experience gained in the application, as well as technological, market and legal developments.
Vision

- Digital identity to support student mobility
Ambition

→ Contributing to enabling the once-only principle for students
→ Supporting the convergence between projects and initiatives
Challenge
Digitising processes inherent to student mobility requires for involved e-services to know
who is connecting
and what their home university is
Today a fragmented and time consuming process
Once-only principle
1 - User account
2 - Identity
3- Access

Common eID for interoperability
1 - User account
2 - Identity
3- Access

Academic attributes
1 - User account
2 - Identity
3- Access

...
We held numerous meetings to...

• Identify the specific use cases
• Outline a blueprint architecture and standards
• Develop the MyAcademicID identity and access management platform
• Implement the authentication solution on e-services
• Outline guidelines for the community to adopt results
• Agree on recommendations for the next steps
We reached out to the community

- Webinars – with over 500 participants from HEIs and NRENs
- Midterm conference – with 130 participants
- National workshops – in 7 countries with over 500 participants
- Closing conference – today!
MyAcademicID was a large consortium outstanding and committed colleagues a milestone in the European Student Card initiative. Thank you all for the collaboration!
The thanks are extended to the ex officio members of the Advisory Board!
And last but not least, we thank staff members of DG Connect, DG EAC and INEA for the collaboration during these two years!
Joachim Wyssling, EUF Program Manager
